

SAINT-GAUDENS DOUBLE EAGLE PITCH

Hi _____, this is _____ over at Premier Coin Galleries. How are you today?

The reason I called is that, over the weekend, we attended a private liquidation. The gentleman was an exclusive gold-type collector. We picked up a massive block of gold coins. The best situation was with the \$20.00 St. Gaudens, you know the double eagles. I picked up a (DATE) certified out MS-66 grade. The coin is absolutely beautiful. The fair market value on the coin is going for \$. I am getting it out for only \$. Also included in the package is a free 1 oz. of silver and the most recent coin world book, so you can see what all the coins are trending for. The way the gold market is going, gold is expected to reach over \$_____ per ounce. That will only help to increase bids even higher, especially with the influx of new collectors out there. The demand for the St. Gaudens is growing, and so are the bids. The bids just keep getting higher because there is not enough of the St. Gaudens to go around. Once you see the beautiful eye appeal on this coin and the savings of almost \$2000.00, this is a home run right out of the park!
