

## \$20.00 GOLD PITCH

Hi, \_\_\_\_\_. It's \_\_\_\_\_ at Premier Coin Galleries. How's it going today? Good! I haven't spoken to you in a while. Are you still getting a lot of calls? Well, \_\_\_\_\_, what separates me from all those other guys is that I only call when I have something truly unique and undervalued.

As you know, my company makes many estate settlements and private liquidations. With the market being as active and volatile as it has been lately, we work as hard as possible to produce great opportunities for our clients. We recently attended a private liquidation involving a very exclusive "gold type" collector. The best opportunities, by far, came in the area of the \$20.00 Double Eagles.

We returned with 56 of the \$20.00 Saint Gaudens Double Eagles and 42 of the \$20.00 Liberty Head Double Eagles. Are you familiar with these coins? (If not, elaborate on the coins...). Every one of these pieces is slabbed and certified by NGC or PCGS in MS \_\_\_\_\_ condition. They are absolutely stunning!

Here's the best part \_\_\_\_\_: because we did so well at this liquidation, we have decided to release these pieces at only \$ \_\_\_\_\_ per coin. There is a limit of \_\_\_\_\_ coins per client, so moving on this right away is important. What I'm going to do is pick out three of my most beautiful and best-performing dates and get them right out to you! I will also include some literature so you can see what

great value this is. There is no shipping, no handling, and no processing fee.

Get these pieces in front of you. Take a good look at them. Once you see the beautiful eye appeal, quality, pricing, and impeccable grading, I have no doubt that you will be very, very impressed. OK?
