

JOHN F. KENNEDY HALF DOLLARS BU PITCH (#2)

Hey _____, this is _____ over at Premier Coin Galleries. How are you? How's the weather out there in _____?

I spoke with you a few months back and mentioned that if I had something with Silver that I could make you money on, I'd call you.

I had a client come in last week who had a huge margin call and needed to sell over 7000 John F. Kennedy half dollars. These are the 1964 silver half dollars, and they are of incredible quality, brilliant uncirculated.

These coins made one of the most significant moves in United States coin history! They went from \$25 to over \$75 per coin in less than a year when Silver shot up a decade ago. Right now, these coins are traded for \$25 - \$30 each, and other companies are selling them for way over \$25 per coin. What we're doing because we need to move these IMMEDIATELY for our client, we're letting them go for only \$____ per coin! We're allocating ____ coins per customer to spread it around and let as many people as possible in on these. Our analysts are predicting that with the next bull market run on Silver, these should repeat what they did a decade ago!

Rest assured; I'm going to secure _____ of these coins for you so that you don't miss out! And when the time comes, and Silver explodes the way our experts and we agree will happen, I'll be the one who re-brokers these for you to ensure you get every dollar possible! Sound good?
